

Interfacing Technologies Corporation is a dynamic Montreal-based software & services company with over 15 years of experience in process modeling, simulation, knowledge, and performance management software. Among Interfacing's clients are world-class organizations from diversified sectors and management consulting firms.

The Intermediate Web developer will report to the Communications Manager and will be responsible for all aspects related to the development of web related content. This will ensure that all Interfacing marketing tools meet company, customer and industry standards. The candidate must be proficient with HTML, CSS, CMS and JavaScript.

Task Description:

- Responsible for web maintenance
- Optimize technical aspects of website (render optimized media type files, etc)
- Work closely with Graphics Designer and Communications Manager to understand the system and functional requirements
- A/B and multivariate testing
- Create templates using CMS
- Other web dev tasks as required

Qualifications:

- Recognized degree/certificate in Computer Science/Web Development
- Five or more years of experience in Web development
- Excellent CSS design skills
- Strong experience in Content Management System
- Experience with JavaScript is an asset
- Good understanding of Web Architecture
- Bilingualism, with a high command of verbal and written English

Interpersonal skills:

- Self-motivated, team player, action-and-results oriented
- Well organized, good communication and reporting skills
- Ability to successfully work under tight project deadlines

Organizational "Fit" Considerations:

Interfacing Technologies is seeking a team player who enjoys technical challenges within a fast-paced environment, applies sound judgment in successful task planning and execution, meets deadlines, and communicates the highest standards of professionalism in his/her appearance and work habits.

If you have the interest in professional growth and joining a leading Canadian Software and Services company, it is time to consider joining Interfacing Technologies Corporation!
