

Position: Software Developer

Interfacing Technologies Corporation is a dynamic, Montreal-based software and services provider with over fifteen years of experience in the Business Process Management (BPM) space. We provide BPM solutions for a wide range of organizations, from small businesses to multinational enterprises, in a variety of industries. We serve Fortune 500 and 1000 companies in Finance & Banking, Pharmaceuticals, Manufacturing, Healthcare, Communications, and Management Consulting, and have established an international network of partners to extend our global reach and diversify our client-base.

The Software Developer will report to the Research and Development Manager and will be accountable for developing and maintaining key modules of Interfacing software. The incumbent must be familiar with Java programming.

Description of Duties

- Design, develop, and modify modules in accordance with functional and system requirements
- Work closely with the Team Leader, Business Analysts, and the Product Owner to understand functional and system requirements.
- Work closely with the Architecture Team to ensure architectural integrity and product quality
- Participate in testing process through unit testing and bug fixes
- Participate in daily scrum meetings
- Participate in sprint planning
- Work closely with the QA team, Product Management team, and the Research and Development Manager to ensure quality and punctual software development

Qualifications

- University degree in Computer Science or Software Engineering (or equivalent)
- Very good Java development skills
- Good understanding of J2EE application architecture
- Experience with Java web presentation tier software development (Servlet, JSP, Wicket)
- Good understanding of relational databases (MySQL, MSSQL)
- Reasonable understanding of Swing
- Experience with Apache
- Experience with J2EE application server software development (EJB, JMS, JDBC, JTA) is an asset
- Understanding of Hibernate framework
- Understanding of SOA and service buses
- Experience with Spring is an asset
- Experience with JBoss Application Server is an asset
- Bilingualism (French / English) is an asset

Personal & Interpersonal Skills

- Self-motivated, team player, action and results oriented
- Well organized, good communication and reporting skills
- Ability to successfully work under tight project deadlines

Interfacing is seeking a team player who enjoys tackling technical challenges in a fast-paced working environment. If you meet the above criteria and are interested in joining an innovative and growing Canadian company, please e-mail your resume to jobs@interfacing.com.
