CLIENT TESTIMONIALS

"EPC was the only tool that answered the projects needs and requirements. We are rolling out corporate-wide to over 400 modelers and 120k employees"

Jean-Luc H., Business Process Architect, ORANGE

"We were able to migrate from a functional based document system to a process-based integrated information system by implementing EPC. EPC met all of our identified business needs and interfacing were integral from the design phase through to Go Live"

Merita H., Quality Systems & Performance, AIRBUS

"Interfacing and EPC product are paramount to our successful future. The ability to capture workflows and utilize standard processes is so important to the utility industry. As staff evolves and responsibilities grow, the need to be efficient has never been more imperative."

Roger K., General Manager, WASCO
